

## Apprenticeship with Christie's Auctioneers in London

Olivia has just received her A level results and will be heading off to Christie's in London for an 18 month marketing apprenticeship.

There were hundreds of applicants for this prestigious apprenticeship and it followed a 4 stage interview process.

The interviews started with an AI recorded person asking questions over a camera remotely and an assessment day in London with 65 candidates for just a few places in strategy, marketing, valuation, HR and events. The assessment day included maths, written and verbal tests.

Olivia was very keen on marketing from the start and had an offer from Nottingham Trent to do a marketing degree as a back-up.

Olivia has been a boarder at Holyport College since year 9 and her A levels are in Geography, Politics and English.

Olivia has also worked at an artisan bakery in Old Basing and Primark in Basingstoke and this work experience helped as well.

We are very proud of Olivia as part of our boarding community especially and obtaining this opportunity with such a prestigious organisation who are very proud of their apprenticeship programme and providing opportunities for young people.

Well done Olivia and good luck in September!
